BUILT FOR PERFORMANCE

Safe for Drinking Water

Manufactured from premium food-grade polyethylene suitable for potable water storage.

UV Resistant

Designed to withstand Jamaica's intense sunlight and outdoor conditions.

Durable Construction

Engineered for long-term performance with thick sidewalls and superior strength.

Secure Screw-Top Lid

Helps prevent insects, dirt, debris, and contaminants from entering the tank.

Tank Level Indicator

Monitor your water supply quickly and easily.

Multiple Colours Available

Choose a colour that complements your home, business, or farm.

Low Maintenance

Easy to clean and designed for years of dependable service.
